Beekeepers May File For Payments For Pesticide-Caused Losses

Beekeepers who want to file for indemnity payments for bee losses from pesticide use may now obtain forms at the Appomattox County agricultural Stabilization and Conservation Service (ASCS) Office.

Commenting that the beekeeper indemnity payment program is new, ASC Committee Chairman, J. P. Alvis, jr., said no estimate can yet be made on the number of claims to be filed or beekeepers' estimates of losses.

The indemnity payment program for beekeepers is retroactive to January 1, 1967, and, under the Agricultural Act of 1970, will continue through December 31, 1973. To be eligible for payments, beekeepers must file applications with their ASC County Committee and must prove loss of or damage to bee colonies because of pesticides.

A beekeeper filing for payment must satisfy the following requirements in written form: Show that his own pesticide application, if any, in no way contributed to his bee losses, that he took reasonable care to protect his bees and after exposure took reasonable action to reduce losses if he had prior notice of pesticide use in the vicinity of his colonies, and that the loss of bees was due entirely to the use of pesticides.

"A beekeeper coming in to the County ASCS Office to file should ask for either the 'short form' or the 'long form'," said Mr. Alvis. "If he has kept meticulous records that show precisely his income losses and where they occurred, he may want to use the long form on which he can show exact amount of his losses, based on cost of replacement bees, loss of honey and beeswax sales, pollination fees, and queen and packaged bee sales.

"For beekeepers who do not have records that detailed that far back, there is a short form available, which shows colony loss," the Chairman added.

If a beekeeper files on the short form, the Appomattox County ASC Committee will determine net loss on the following rates: $20. for each bee colony destroyed, $15 for each colony severly damaged; $5 for each colony moderately damaged, $7.50 for each queen nucleus destroyed, and $5 for each queen nucleus severely damaged.

On either form, the beekeeper will specify colonies in his apiary before loss because of pesticides, colonies free of damage, destroyed, severely damaged, and moderately damaged, queen nuclei destroyed and severely damaged, and total loss.

The beekeeper will be expected to provide evidence of his bee losses from pesticides. Retroactively, such evidence may include official reports of losses filed with local or State authorities, business records kept at the time of loss, written statements by disinterested persons with personal knowledge of the losses, photographs authenticated as to date, location, and accuracy, reports of apiary inspectors and tax returns.

Current losses must include a written statement by a disinterested person and full information regarding the loss, including cause, extent date, and location.

A beekeeper will also submit evidence that his loss occurred as a direct result of the use of pesticides near his apiary. Such evidence may include reports of chemical tests performed on dead bees; records, signed statements or official reports of pesticide applicators and vendors employed within forage range of the bees, and governmental agencies or universities possessing verified information on the application of pesticides in the vicinity.

"Any beekeeper wanting to know full details about the indemnity payment program for pesticide losses should get in touch with his County ASCS Office," Mr. Alvis said. "He may come in to the office, phone or write, and we will be glad to give him all the information we have and help him understand the forms and the proof of loss he will need."

CRIME REPORT GRANT AWARD

Commission Chairman, Carl D. Cress, Jr., has been informed by the Virginia Division of Justice and Crime Prevention that two Action Grant Applications totaling $3,702 were approved by the Virginia Council on Criminal Justice at their meeting on Oct. 7, 1971.

Funding of these Grants will enable the cities of Bedford and Lynchburg to participate in the Virginia Criminal Information Network being installed by the Department of State Police. Each city will receive $1,851 to be used toward first year's rental of a "Field Terminal" keyed directly to a data bank located in the Division of Motor Vehicles Headquarters at Richmond.

According to Bud Harding, Criminal Justice Planner, "Installation of the system is designed to provide rapid information retrieval via a computerized system of data storage, thus reducing response time, duplicated storate of information and long range costs related to such duplication. Such a system will, obviously, improve efficiency and effectiveness of these police departments."

Volleyball Trophy Winners!

When it comes to winning, how can you top this? The Appomattox County High School Volleyball Team won the District Trophy, (Shining in the front row) above, and to win it, they played the tournament with distinction and also polished off a remarkable season winning every series of games. With the rule that a team had to win "Best of three", the local girls played only two games each time because of two successive wins!

The captain, Pat Ferguson, is not shown and Suzanne Hendricks, another player was unable to be present for the photo. Team players (from left, above): Janet Hix, LaVerne Allen, Joan Coleman, Brenda Perdue, Margie Hamlet. Second row: Nadine Robinson, Jane Hix, Joanne Elder, Mary Louise McCraw, Mrs. Louise Martin, coach, Teresa Smith Kathy Tuck, Pat Book, Susan Moore, Vicki Dickerson, Debbie Tweedy.
